https://www.efsa.europa.eu/en/interactive_pages/AMR_Report_2015#

THE MANDATE ON 'INDICATORS'

Terms of reference

- ECDC, EFSA and EMA to jointly propose a list of outcome indicators suitable for monitoring and detecting reductions of relevant magnitude in the levels of key drug-resistant microorganisms in humans, food-producing animals and food derived thereof and in antimicrobial consumption in humans and food-producing animal species.
- Maximum 15 indicators, divided in:
 - Primary indicators (5?) = monitoring essential
 - Secondary indicators (10?) = monitoring highly recommended
- Built where possible on data already collected.
- [...]

Deadline
30 September 2017

UPDATE ON ON-GOING ACTIVITIES

- 2015 EUSR on AMR published
- JIACRA II project
- Mandate on Indicators
- WGS
